PREFACE

The English textbook for standard VII has been prepared following the guidelines given in the National Curriculum Framework, 2005. It has been created to make English language learning, both effective and enjoyable. The aim has been to balance learning the structures and vocabulary of the language, with learning their use in everyday life.

The activities have been graded carefully to allow a gradual building of language proficiency. The lessons provide effective individual and collaborative learning in pairs and groups and enable differentiation in multilevel classrooms. Each unit focuses on the themes of natural and social world to stimulate curiosity and imagination, engaging both heart and mind. An ICT Corner has been introduced in each unit for the first time in a State Board Text Book to develop current digital literacy skills.
