7. Using the given tetrominoes with numbers, complete the 4 x 4 magic square .

6.3 ROUTE MAP

Situation 1

Maps are used to display a wide variety of information. Reading a map can help us to solve many problems in travel such as planning, for travel, place of visit. Let us, learn how to find the shortest possible route in a map.

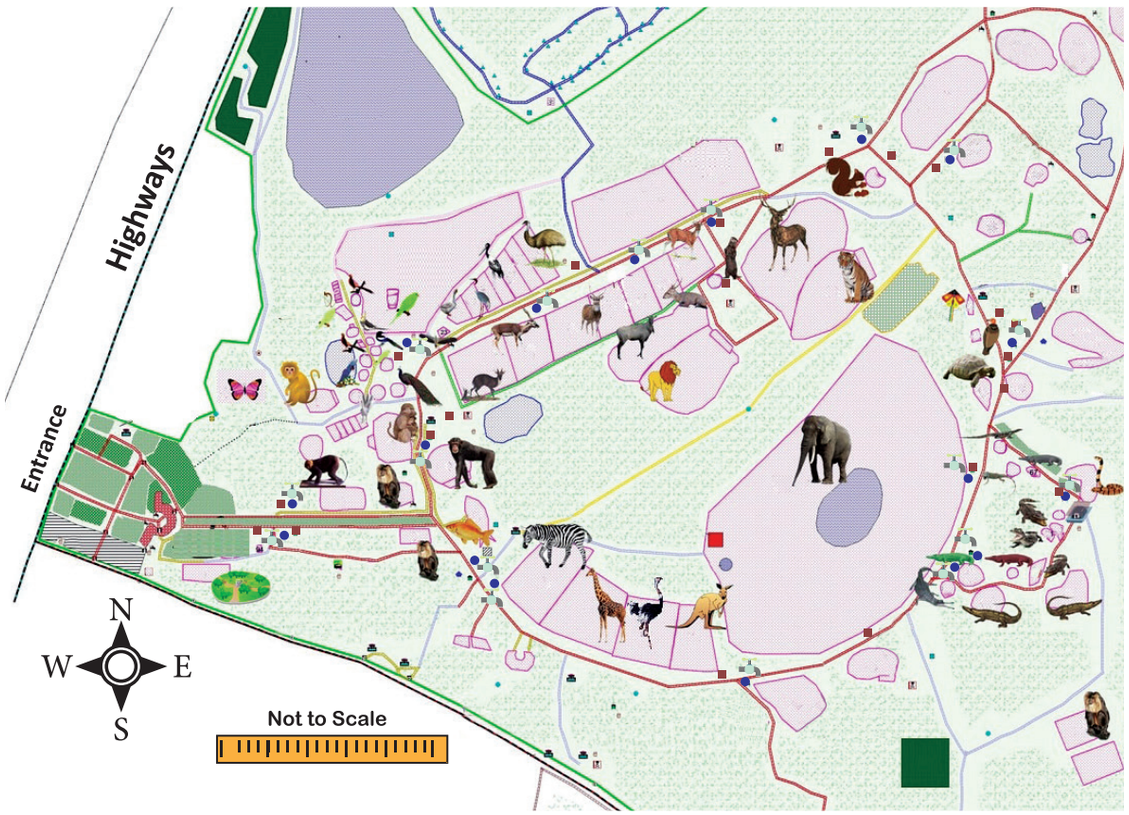

Fig.6.24

Answer the following questions using The Arignar Anna Zoological Park map :

1. To visit the chimpanzee area, from the entrance, one has to go straight and turn towards ..... (Left / Right)
2. Choose the right option among the following, which indicates the animals lying West and East of an Elephant.

(i) Deer ← Elephant → Crocodile (ii) Tiger ← Elephant → Deer
